Custom One - WW1

Muα

Mua *Custom One* is a unique experience of exploration and discovery.

Mua *Custom One* is a high quality touch-table, fused with a fully-customisable software package. It has been designed to bring providers and users with a remarkable facility to host and retrieve historical artefacts and information, current and relevant knowledge and innovative possibilities.

Mua *Custom One* creators comprise of experienced personnel in information technology, web and media design, research enquiry and artistic talent -from the beautiful northern Hawkes Bay.

Mua *Custom One* stems from a well-established company called Curve Technology Ltd - the brainchild of Andrew Hume.

Combined with the collective knowledge and dedication of Salute Wairoa - a non-profit organisation set with the task of gathering data about Te Wairoa's WWI soldiers, and the immense support of the local and national community - the concept of *Custom One* was born.

From there it has stemmed into a technologically advanced product, that is timeless and limitless in it's potential.

About **Mua**

Mua is a cluster of ICT and creative businesses based in Wairoa, New Zealand.

We believe access to information is a critical component of good decision making and our goal is to facilitate the capture, storage and access to historical information for future generations. We feel honouring and learning from the past is the first step on the path to a better future.

All tables are designed and manufactured in New Zealand.
