Custom Collections series

Mua Custom Collections series is a unique experience of exploration and discovery.

Mua Custom Collections series is a high quality touch-table, fused with a fully-customisable software package created in a 3D platform, with web portal capability.

Mua Custom Collections series has been designed to bring providers and users with a remarkable facility to host and retrieve historical artefacts and information, current and relevant knowledge and innovative possibilities.

Mua Custom Collections series creators comprise of experienced personnel in information technology, web and media design, content creation and artistic talent – from the beautiful northern Hawkes Bay.

Mua Custom Collections series stems from a well-established company called Curve Technology Ltd – owned by Andrew and Alma Hume of Wairoa.

Mua Custom Collections series idea started from Curve's involvement in a project acknowledging local WW1 veterans. From there the idea of producing a product for the local, national and international market arose. It has now stemmed into a technologically advanced product, that is timeless and limitless in it's potential.

About **Mua**

Mua is a cluster of ICT and creative businesses based in Wairoa, New Zealand.

We believe access to information is a critical component of good decision making. Our goal is to facilitate the capture, storage and access to historical information for future generations. We feel honouring and learning from the past is the first step on the path to a better future.

All tables are designed and manufactured in New Zealand.
